

Parent Workshop – Wednesday 25th October

Reception, Year One and Nurture Group

Developing your child's independence skills

We have a specialist occupational therapist delivering this workshop which has been developed for parents of children who require continued adult support to participate in self-care tasks.

The workshop aims to:

- Provide an overview of the skills required that enable children to develop their independence in activities such as washing, dressing, toileting and feeding.

- Provide practical strategies which can be used at home to support your child's development of independence skills

Please join us in the infant school hall, with refreshments available at 9am. The workshop will last approximately one hour, with the opportunity for questions at the end. Please return the slip below if you are able to attend. We look forward to seeing you.

I will be attending the 'Developing Independence' parent workshop on 25th October.
